

RE: GRACE CHRISTIAN COMMUNITY - MINISTRY APPRENTICE POSITION 2018

Grace Christian Community are pleased to offer two full time ministry apprentice positions in 2018 – one male and one female.

The position will focus on the three C's of Christian leadership and ministry; Conviction, Character and Competency. This is a unique opportunity to be trained in the context of a start-up ministry (church planting); and an opportunity to be involved in the shaping of a church and experience a new church from its infancy. A ministry apprentice will be exposed to leading a wide range of ministries including (but not limited to) evangelism, preaching, small groups, discipleship, Sunday church, training activities, kids church, leading ministry teams, etc. A ministry apprentice will receive a high level of support, supervision and training.

The church believes that deeply investing in, and subsequently sending, men and women out into the Lord's harvest field is a crucial part of our vision. We have had great success with the Apprentices we have trained in the past. As such we commit a significant amount of our resources as a church towards the growth and equipping of suitable individuals.

A person considering applying for this position must be a Christian of Godly character who is wishing to explore full time vocational ministry in the future. They must also be able to demonstrate that they are actively serving God in their current context.

If you would like to explore this as a possibility, please contact us using the information below and we will explore your suitability and timing together.
