What Good Is Waiting?

"those who wait on the Lord shall renew their strength"

Waiting is a powerful thing in the life of the believer. Waiting on God shows trust and patience and makes God's heart happy.

We are born with pride which is very touchy when it comes to waiting. But waiting for God has the power to transform us into something honorable. Waiting shows value for the thing, waiting shows Godly character. Waiting exposes all of our flaws.

Release is the key! If you trust Him, His word is easy to see fulfillment. You have given time to Him and the release is freedom.

Make progress and stay steady, release yourself to God's will! It makes a difference.
