God's Timing!

The exquisite preciseness of God is something to be examined and to glory in for He is our God, involved in every aspect of our lives!

“The heavens declare the glory of God”. Romans one makes it clear that people are responsible to seek out God on the basis of his creation alone because of its overwhelming testimony to Him, Paul said “they are without excuse”.

Amazing as it sounds every year during Easter week the Northern cross lies down on its side in Eastern sky, and conversely in December Christmas week the Northern cross appears to stand majestically upright on the northwest horizon at 8:30 pm giving its witness to the greatest event in mankind's history.

God gives us signs too. He constantly speaks into our lives affirming and reaffirming what He promised us. Look around and see, you are His child **and He is giving witness!**
