## The Twin Powers

*that you do not become sluggish, but imitate those who through **faith** and **patience** inherit the promises. Heb.6:12*

It's the power of two virtues that give us the victory, faith linked with patience does it every time! One feeds the other, as you maintain your daily relationship with God, He renews your strength. The strength gives you the patience to keep pressing on.

There is no substitute for this process every one of God's greats had to push and persevere for many years waiting in faith for God to fulfill His Word, and you will too if you inherit the promise!

So don't be weary in well doing, in due season you will reap if you faint not. Don't give up on God He is with you every day!
