the dichotomy of serving God

dichotomy: a division into two mutually contradictory groups.

The whole of the kingdom of God is contradictory to all that we know in this life. Jesus gave these kingdom principles, if you seek to save your life, you will lose it. The way up is down humble yourself and God will exalt you in due time. The weaker we get in our flesh the stronger God gets in our spirit.

Less of me equals more of Him. The world says, "exerting your will and dominating will get you results," God says "be still and wait for me". If you can rule your own spirit, your stronger than a man who conquerors a city!

The Word of God is true everyday all day for every person who believes and acts on it. Accept the upside-down world of the Kingdom of God.....eternity is the reward!
