The shaking and the prayer revival!

A couple of weeks ago we had our fall prayer revival. It was well attended each night I was so proud of the people who came night after night to seek the Lord!

Friday night after prayer we walked out to the parking lot and at 8:03pm an earthquake suddenly hit, it felt strong and made the windows in the church pop back and forth. We were all startled and after a few moments everyone calmed down. I didn't think much about it, as we are always feeling shaking and tremors in California.

But the next day in prayer the Lord signaled to my heart, that it was His doing that brought the quake and the timing of it was His too. He said "your prayer has come up as a memorial to me, I have marked it, and I am pleased. I will send my glory just as fast and unexpected as the quake. No one can stop it, or have any say in it, for I am the Lord and always keep my Word to my people.

I thanked God for his Word and I encourage all of you who are in prayer with your pastor, we are honored by God, and He is certainly coming at the appropriate time!
