WIND BAGS

And the prophets become wind for the word is not in them Jer. 5:13

It seems today there are many who are prophets. On social media they spew out prophecies left and right. It seems almost daily they are on the hotline to heaven and sharing or warning some message from God!

Paul said, "know those who labor among you". In other words, don't just accept anyone who says they are a prophet. Record what they say and see if it comes to pass. The Old Testament prophets were to be stoned if their words didn't come true. God takes very seriously those who speak for Him in His name.

The temptation to grow your audience, get more likes, have bigger rewards from You Tube is a lure that some can't resist. Credibility is at stake not ours but God's!

Amen,

Pastor Chambers
