Family Life Missions Update

Because of you, 120 children attended our Por los Niños Christian School this year, representing a 12% increase over last year. Even more meaningful, 96 families met monthly through our parent engagement program, gaining tools to become stronger parents and to help their children succeed academically, emotionally, and spiritually.

Through our Foster Care Program, nine children have been placed into loving foster families—families recruited from local churches, carefully trained by our team, and fully accredited by the Honduran government. We also celebrated a beautiful milestone as one child was adopted into a permanent Honduran family, where he is now growing, thriving, and deeply loved.

This year, our Comprehensive Care Center served 113 children and 42 families, providing holistic care that meets families where they are. This care includes trauma therapy, parenting and life-skills classes, play therapy, and individual spiritual guidance—helping children and families heal, grow, and move forward with renewed hope.

Every staff member at Family Life Missions has been trained in TBRI® (Trust-Based Relational Intervention), and three of our staff members are certified trainers.

Through our Family Preservation Program, we served 53 children and assisted 27 families, helping families remain safely together. Included in this work were six families in our Building Dreams program, where unsafe homes were renovated—or entirely rebuilt. These projects flow through local churches and unite Honduran construction workers, U.S. mission teams, local church members, and Family Life Missions staff. Families actively participate in the building process, restoring not only their homes, but also dignity, safety, and stability.

We also walked alongside six families through our Inspiring Hope Entrepreneurship Program. After completing training, each family received \$100 in seed money and developed a business plan with ongoing support. Families like Luisa's, Cindy's, Rossy's, and others can now better provide their children with food, clothing, and education. Economic sustainability has truly changed the trajectory of their lives.
