

Volleyball

Welcome to the "More Than a Game" Alleluia! Sports Program. Our program is focused on developing the total player with skill development at the core while working with the parents to help form a foundation that will develop character and integrity in their children. "MTG" is founded on Christian principles and promotes good values such as: excellence, relationships, integrity, teamwork, service and a genuine concern for others. We have designed a program that takes the beginner and intermediate athlete through basic skill development for each program and gives them the confidence to go on to game playing. Each session consists of skill development, a break for Core Value discussion, games, and competitive game play.

Each player is provided a game card highlighting the core value discussed during the session. This is an opportunity for the parent to interact with their child, enabling further discussion of the topic at home.

We know that a focused yet Christian environment is helpful to both athletic development and experiencing life at its fullest. We emphasize putting the fun back into their athletic experience and having them enjoy participating in sports!

No Volleyball is scheduled for Fall of 2018. Please check back in January!
