CREEK CONNECTION

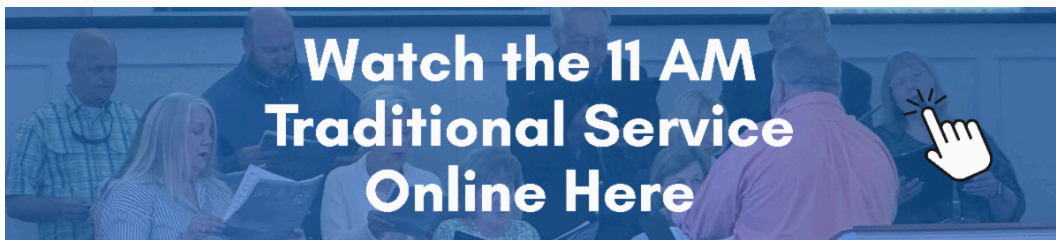

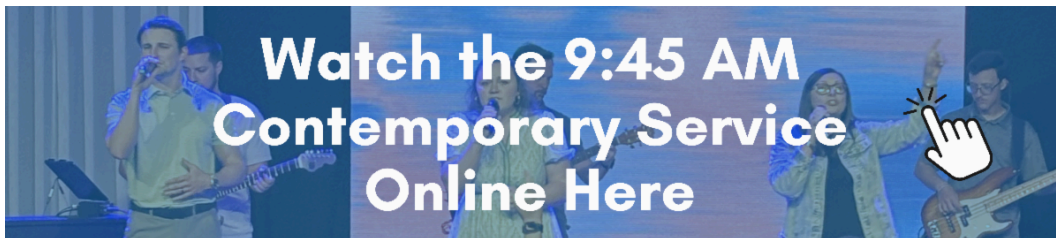

June 24, 2026

As a result of the freedom we enjoy as Americans, we are free to make choices that people in many other countries are not free to make. Every choice we make affects and impacts our lives in some way. It may be a small impact. It may be a large impact.

So how can we be sure to always make the right choices—the best choices? How can we avoid making decision that we will later regret? How can we avoid making decisions that will impact others in a negative manner?

Join us this Sunday as we recognize America's 250th Anniversary, and as we talk about the power of our choices and learn how to make better choices with the freedom we enjoy.
