FROM THE OFFICE

Did you know that the **handicap door openers** run on rechargeable batteries not electricity? So, they stop working when it runs low. Opening those doors manually is what charges them.

News You Can Use Deadline

To get this email out on time, the deadline for submitting non-critical information is now Tuesday at noon.

GREETERS WANTED

We are looking for interested people who would enjoy being a greeter in our church. Your commitment can be flexible. It involves being present before and after the service to offer greetings to members and visitors, with some follow-up on requests from visitors as needed. A short orientation will be provided.

If you might be interested in this ministry, please sign up in the Narthex, or see Beth Tschorke.
