## News from the Nadolnys

Local Missions • Florida September 16, 2019

“I’m so excited to start Cru on my campus! Imagine there’s an island of people who are no longer complacent about God. I want people to experience that island. I want to see my friends and I coming and going from the island

campuses. Her eyes lit up as we cast vision for her and her friends to start Cru on those campuses!

She’s already shared the gospel with two friends in the past couple weeks despite being evacuated due to

**to bring others with us to experience a thriving relationship with Jesus.”**

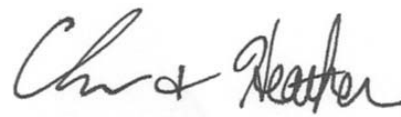

As you know we've been praying for 30 new campuses to start Cru movements in Florida this year. God is already answering that prayer. A friend told us about a girl named Juliet at Palm Beach Atlantic University who was interested in starting Cru on her campus. She and two friends recently returned from Cru summer missions and want to help people experience a greater sense of mission at their university.

Juliet is an unusual answer to prayer. Palm Beach Atlantic is a Christian school in the middle of the 11th most unchurched area in the nation (Barna, 2015). Usually, students at Christian schools want to start a Bible study more than they want to engage in evangelism. Juliet wants to mobilize students to share their faith throughout the city and on the beaches nearby. We've also been praying for Cru to start on two nearby

Hurricane Dorian. Mary, a firm atheist friend from high school, told her she felt like God had been pursuing her for the past year and wants to continue talking about God.

Juliet also gathered 4 more friends to start Cru at PBA. These friends want to be used by God in their city. They too are excited about evangelism and being a part of what God is doing around the world through students. They want to see God embolden their classmates with passion for His name and are willing to do whatever he tells them. In fact, they are planning to go share their faith in the city next week. These students are building movements not just starting clubs.

Thank you for your role in impacting the lives of these students. Your prayers and support are mobilizing young people to help fulfill the Great Commission in their generation.

---

## Prayers & Praises

### Please Pray...

- For Juliet to experience God's empowerment as she hesitantly steps into a leadership role feeling as ill-equipped as Moses did.

### Praise God...

- For connecting us to Juliet and her friends.
- For a successful trip to Miami, finding new leaders on two new campuses.

- For Mary, to respond to Jesus.
- For the students on the 10 Miami campuses, to lead boldly as their staff team dwindles to 3.
- That God would raise up volunteers and partners to join us in reaching universities.
