How To Search This Resource Library List:

On the keyboard, hit the Ctrl key AND the F key at the same time. As a result, a search box will pop-up on the screen. In the search box, type the first or last name of the author or you can enter a key word from the book or series that you are looking for. Once the word has been typed, hit the Enter key on your keyboard. The system will then show you each listing where a match or partial match was found. It will do this by showing you a list of matches or highlighting the word that was matched on the library list itself.
