

Hill St. News

After a two-year break due to severe covid restricciones, a short-term team of Argentines from the most famous sea resort in Argentina, Mar del Plata, came up to Santiago. They arrived to spend 10 days ministering in the area of the Jesucristo Tucuyapaj (Jesus for all) church in Huiñaj Atum. They arrived to the most unusual winter climate, warm weather and sunshine and not the traditional “coldest week of the winter.”

As the men worked on the cement columns of our building, there were workshops and bible studies with the women and a variety of activities for the children, the teens and the youth. In the afternoon there were sports activities as well as an inflatable castle for the children. A retired businessman with his little van made the trip back and forth to three different areas bringing and taking people every day with an incredible smile on his face and a grateful heart in service.

Time was taken to visit the different homes in the area and share the gospel and pray for the people. We also organized three “gospel locros”. A loco is a traditional winter stew made with squash, beans and many different and unusual

CHANGE:

pork and cow parts that takes 4-6 hours to cook over an open fire. After a delicious meal the gospel was shared, and people were prayed for. Who would have thought that a simple traditional meal would be a wonderful platform for people meeting the Lord? We are thankful for Maria, the sister who came up with the idea, and against many odds was the catalyst for sharing the gospel with her neighbors and friends. Decisions for Christ were made and as we are following up the group is growing in numbers and in spirit.

They also brought the gospel scissors. One of the young ladies that made the trip was a hairdresser who brought her equipment with her and in the afternoons shared with many boys, girls and adults a haircut. The incredible transformation that impacted the lives of many was a sight to see, incredible smiles manifested the transformation of heavy hearts and problem plagued lives. You could actually see them stand tall, an ample smile and a new sense of being.

The teams generosity also include medical and school supplies that were distributed to three medical outpost and one school in the area where the gospel was shared and people were prayed for.

The wonderful fallout of this visit is increased attendance, new believers and new people interested in hearing of the gospel of Jesus Christ. This last Saturday we celebrated "Children's Day" and a 160 people attended the event. We sang songs, shared the gospel and as we began to carry out activities for the children a strong wind gave rise to an incredible dust storm. We cancelled the games and gathered everyone under the roof and protection of the building. As the dust covered everything, an abundant meal was provided after which we handed out gifts. A sense of joy and happiness permeated the air and mixed in the all the dust the windstorm layed on us. Around noon we actually had to send everyone home around noon as the dust storm increased and the dust continued to whirl around us and wrap us in its arms. In the blogpost at the bottom of the page there is a video of the incredible dust storm, notice the boy riding a bike and the young people playin soccer in the midst of it all, as if nothing was going on! A team from Cabildo was able to provide all the food and gifts through many donations and gifts from and incredible array of sources. As we drove home an incredible sense of gratitude and joy floated us all the way home.

This was probably the most impacting visit the work there has ever received as many of the different activities touched the lives of many and an incredible spiritual impact was made.

PRAYER CONCERNS

- For a couple that is willing to move to the area and do outreach and Shepard de flock.
- That we would take advantage of the espiritual momentum the team created.
- That we can find the resources to complete building.
- For my mother, Jan Hill, who at 98 has lost her ability to move on her own and is suffering her lack of idenpendence.
- For our finances, we are currently about 15%
