

Dear brothers and sisters at Bethany:

We are doing well and thankful for your prayers and support. Our biggest prayer concern is the situation Argentina is going through. We are heading to over 80% inflation this year, prices are changing daily, there is a shortage of fuel, especially during this harvest time. Close to 50% of the country is in poverty and there is a lot of social unrest and a paralyzed or politicized government that is polarized and ineffective. Please pray for Argentina.

Our second prayer request is for our finances. The patterns of giving are quite irregular and this year we have three months of full support and three of under support. With this pattern we will probably end the year at around 16% of under support. In all the years of service the Lord has always been faithful and provided all.

Looking to Him,

Paul & Ana
