

Danli & El Paraiso, Honduras August 2025

Brothers, may God bless you, and I hope in God that you and those around you are well.

I want to inform you that we have started this year a project of personal evangelism with the congregation of Danlí. The Project has the name "Winning Souls for Christ" according to Matt. 28:19, 20 and Mark 16:15,16. The purpose of this plan is that everyone in the church is committed to preach the gospel of our Lord Jesus Christ to every creature. Our desire is for each brother to win souls for the Lord. In the month of February, we held a seminar of preparation for personal evangelism. The seminar was given by brother Marvin Espinoza, the director of the Biblical Institute of Central America (B.I.C.A.).

From July 7-11 I went to teach classes at the Biblical Institute, B.I.C.A.. They assigned me the topic: the General Doctrine of the church.

65 brothers attended the seminar. We started the evangelistic work at the beginning of March. We go out to evangelize on the second and last Sundays of the month, at 1:30 in the afternoon. We are working in some zones where established missions already exist. We are also working in two areas where new missions are opening up.

54 brothers are headed out to the following locations:

1-Danli: In Danli we are working both to restore brothers who are discouraged and have fallen away as well as evangelize new contacts.

2-Santa Ana (Evangelism)

3-El Paraíso (Evangelism and restoration)

4-Bañaderos, El Aguila (Evangelism)

5-La Angostura (Evangelism)

Two New Focuses For Our Evangelistic Ministry:

6-El Chichicaste (Jamastran): A building where the church can meet exists, however there are only three members. By God's grace the evangelistic efforts have resulted in eight visitors. Within a couple of Sundays there might be two baptisms. This place is one hour by car from Danlí.

7-Sartenejas: This location has five members who meet in a building. We have also started to work in this place. By God's grace 16 new individuals have visited the church services. This place is 45 minutes by car from Danlí.

We are grateful to God that the church has committed to this great project of going to preach the gospel of our Lord Jesus Christ.

We are using the old church bus to provide transportation to various locations. Yet, the bus creates some logistical limitations due to its mechanical issues.

However, with God's help we are working to take the message of salvation to various towns outside of the city of Danli.

I ask for your prayers for this work plan that it be our God who is guiding and blessing this great project to win souls for our Lord Jesus Christ.

Your brother in Christ: Denis Moncada.
