Why Evolution Doesn't Fit the Bible Narrative

1. Contradicts Creation

The Bible describes creation as a direct act of God, with humans made in His _____ (Gen 1:26–27).

2. Death Before Sin

Evolution requires death for millions of years. Scripture says _____
through sin (Romans 5:12).

3. Undermines Scripture

If _____ isn't true, every part of the Bible that quotes or depends on
_____ is weakened.

4. God's Nature

Evolution presents God as a distant spectator. The Bible shows Him as a **caring, intentional Creator**.

Creation in Us

“So God created mankind in His own image.” (Genesis 1:27)

“You knit me together in my mother's womb.” (Psalm 139:13–16)

We are _____ DNA • Skeletal System • Nervous System • Brain • Eye •
Respiratory System • Circulatory System • Immune System

“For since the creation of the world, God's invisible qualities... have been clearly seen.”
(Romans 1:20)

Laminin

A protein that literally _____ **bodies together**.

“He is before all things, and in Him all things **hold together**.” (Colossians 1:17)

Bottom Line

_____, _____.
