Team Ethiopia News
Missionaries Ray and Wanda Hoover

Dear Brethren in Christ,

This month has been full of doctors visits, tests and now Wanda's surgery. Wanda and I have been blessed with good health for a long time P.T.L.. However this new year has changed things. I had the knee surgery which is successful and I am doing well. Wanda had a test done and found an abnormal growth that had to be removed. That is why she had this latest surgery. The doctors are confident at this time that the growth has been completely removed and have assured her of a good, long life. Of course we know Who is in control of that. The Lord knew all about these things and our trust is in Him and his timing.

Brother Teddy and our team in Ethiopia Mo are doing fine without us. That is great but we miss being there. When you're away you always wonder what about that project, what about the members, health needs, financial, spiritual needs, new believers, evangelism. You understand for sure.

I am trying to be a faithful witness while we are here in the states. I ask the Lord everyday bring someone into my life that I can speak to about Jesus and He does. I would encourage you do the same and see what happens.

Please pray for our work in Ginchi, Teddy and the others are getting ready to move the building to the new location. They will take it apart and then move the materials to the new location and rebuild it. Oh how I wish that I was there. I would be right in the middle of it with a hammer and saw.

God bless each of you. Pastors thank you for faithfully leading your churches. We are in the best time ever, Jesus could come at any moment. Just imagine the shout, the trumpet and up we go. Hallelujah, hallelujah, hallelujah!!!!!! As Dr. White would say 'Hold my mules and let me shout'.

Listening and ready to go,

Ray and Wanda Hoover
