

April 2018

Diggin' Up Dinos

Spring is here and the Explorers are ready to get back outside! This month we are getting back to nature and digging for dinosaurs. Hopefully the weather will cooperate and we will be able to do some major digging around the school. We will be talking about Paleontologists and their discoveries. We will make some fossils of our own and create our own species of dinosaur.

On April 2 and 4, it is Meet the Dinosaurs! We will be measuring out how big they were and learning names. The week of April 9 and 11, we will be creating our own species of dinosaur. The week of April 16 and 18, we will ask you to bring in the small dinosaur we gave them to be frozen in ice! April 23 and 25, will be the Big Dinosaur days complete with a volcano or two! Our Monday class, on the 30th, will walk like Dinosaurs. Monday only, please bring in 2 empty tissue boxes.

We will plan to be outside as much as the weather allows so please dress accordingly...in play clothes...we will be digging in the dirt! Be sure your child has a change of clothes each day in case we get a little crazy with the dirt.

We will be having lots of Dino snacks so be watching for our sign-up sheet on the outside table.

Thanks to all of our AWESOME parents for all your Pet donations. Our "Pet Store" and "Veterinary Office" did a whopping business! We definitely have some potential Vets in our class...they took such good care of our animals!

We are looking forward to a busy April!

In Him,

Mrs. Foster, & Mrs. Oakes
