

May 2019

Blue Room Newsletter!

Hello Blue Room Families!

Our theme this month is "Oceans". We will learn the about the ocean and the animals in it. Our science experiment will teach us why sharks float.

This month we are learning the letters Y and Z. We will also learn the numbers 9 and 10. Our shape of the month is octagon. The Fruit of the Spirit is Self-Control ("For the grace of God teaches us to live self-controlled, upright, and Godly lives." - Titus 11:12)

We are continuing to work on the many skills they've learned this year including letter and number recognition, writing their names, and letter sounds.

Conversation Starters: Ask your child about the how sharks float!

Graduation is May 20th for the Monday/Wednesday class and May 21st for the Tuesday/Thursday class, 1-2pm including a cookie reception. Thank you for sharing your beautiful, smart, fun children with us this year!

Blessings to your family this summer!

Tricia, Kitsie & Lauren
