Enrichment News

Dear Colonial Parents,

We're keeping warm with lots of action in Enrichment Classes. We have to keep things moving inside since we don't get to spend much time outside in the winter months.

In M.I.F. we are moving on to the proprioceptive unit where we will be doing a lot of pushing, pulling, dragging, stretching, and bending over the next few weeks. Preschoolers playing tug-o-war is a blast! We have had "snow" much fun with our fake snowballs.

In Art class we made Monet's Japanese bridge and water lilies. We learned that Monet is the Father of "Fuzzy" (impressionism). "Now we see fuzzy, in heaven we will understand everything clearly" 1 Corinthians 13:12. Next up is "Action" Jackson Pollack.

In music, of course, we sang many songs, played instruments such as the xylophone and maracas, and learned some fun dance moves along the way. Bear Day was full of crazy fun with our bears!

Again, thanks for sharing your children with me. They are wonderful!

Blessings,

Miss Julie
