

November 2020

Exploring Trains, Planes and Automobiles

This month the Explorers are checking out Travel and Transportation. We will start out the month preparing for our wondrous trip by making passports, tickets, and some cash to use for traveling and buying our snacks later in the month!

Please be on the lookout because we REALLY need your child to come to school on the 9th or 11th with a **BOX** that they will fit inside of to create their own set of wheels! We will be creating cars that Monday and Wednesday to cruise around in and even head to a drive-in movie! We will be sending home a license plate for each child to “personalize” with their name so you can then **attach it to their box to bring to school**. If anyone has an old license plate that we could borrow, we would love to use it for a license plate rubbing on the 2nd and 4th.

Thanks in advance for all your help this month with our donation lists. It is another crazy month of donation items and the children love to have all the new exciting items that come through our class! You have all been so wonderful the past two months bringing in anything we have asked for!

This month we could use travel magazines, brochures, anything travel related for our travel agency, and a large box to make a car with for the month.

The weather is getting colder, please be sure to dress for the weather each day. Also, check those extra clothes to be sure they are warm too...just in case! As always, let us know if you have any questions, concerns or suggestions. We love hearing from all of our parents!

In Him,

Lucy & Angie
