## Friendly Frogs Newsletter

Dear Frog Families,

Can it be May already???. This year has just flown by. It seems like just yesterday we saw your children's sweet faces for the first time. We have made strides and memories that we will never forget.

It is with great joy and a little sorrow that I let you know that I will be retiring this year. After 28 years of teaching preschool it is time to enjoy the blessings God has given to my family. Tom and I have been married almost 47 years, have 3 children in different states and 6 beautiful grandchildren that we adore! We plan to enjoy each day to the fullest but also to make a difference in the lives of others along the way. Thank you for all of your kindness and support this year, you have made it so memorable!

Lamentations 3:24 "The Lord is my portion saith my soul, therefore I hope in Him"

This month we are learning fun facts about water, and experiments with water!! The children love to decide if items will sink or float? We'll be reviewing numbers 1-20 and every color that we have learned this year. We are watching our plants grow at the garden, and they love to water ever so much!!. We plan to do some outdoor painting with spray bottles and paint with ice cubes when it gets hot.

We are going to ask the children to bring in items for the sink or float experiment, and that will provide some great questions for you to ask them!

Have a wonderful summer with your children as they are true Blessings from God.

The last day of school for M/W classes is May 20th, and is May 21st for T/Th classes. Frogs do not participate in the graduation ceremony.
