

Explorers Newsletter

It is hard to believe the year is coming to an end. We have had so much fun “Exploring” with your children. The year has really flown by. We hope your children have enjoyed the experience as well. Angie and I want to thank all of our parents for making it all possible- we couldn’t have pulled off the year without all the crazy donations. Thank you all for going the extra mile for our class!

For our last wacky month, we are blasting off to Outer Space, to explore “The Final Frontier...” We will make our own Solar System, “walk” on the Moon, test some balloon rockets and make some “moon goop”, among other things.

We will still have a snack sign up, but will try to keep the wild goose chases to a minimum!

Thank you all for sharing your wonderful children with us! They made each day exciting and special. We wish them all the best in their next adventures and hope they continue to “Explore”!

In Him,

Lucy and Angie
