Director's Message

Happy New Year! We wish you much joy and blessing for 2021!

Registration for the 2021-2022 school year will begin January 25th. As a current preschool family, you will have the first opportunity to enroll your child before we open the registration to the community February 1st. There will be more details regarding priority registration, within the upcoming weeks. We will be conducting student evaluations during the month. This helps both the teaching staff and parents see how your child is performing both academically and socially. If you have any questions, please message your child's teacher. As we get deeper into the winter months, please remember to send your children to school in weather appropriate clothing. As the weather permits, we try to take the children outside to the playground to get the wiggles out!

As a precaution, we are asking if your child/family traveled during the Christmas break; that you monitor your child for any signs of illness for 7 days before returning to preschool.

Thanks again for all you do!
