M: *Change Your Words Change Your Life*

Book Study

"Words are a big deal. They are containers for power, and we have to decide what kind of power we want our words to carry. . . . I believe that our words can increase or decrease our level of joy. They can affect the answers to our prayers and have a positive or negative effect on our future. . . . One might say that our words are a movie screen that reveals what we have been thinking and the attitudes we have."

This book examines how we use words-the vehicles that convey our thoughts and emotions-and provides a series of guidelines for cultivating talk that is constructive, healthy, healing, and used for good results.
