

## Build to Build Fact Sheet

### **Wait, I thought The Rock wasn't really into buildings and money.**

You are right! Facilities and money are merely tools to help accomplish the vision of The Rock. Rest assured that no one here is interested in having the biggest, prettiest, or most expensive building in our city.

### **Why don't we keep meeting at Copper View Elementary School? It seems to be functioning pretty well for our needs.**

This school has been home to our Sunday morning worship services for over three years, and it's been a blessing to us. However, our rental agreement only allows us to use the school from 7:30am to 12:30pm on Sundays, and the Rock Ranch can't accommodate gatherings of more than 50 people.

### **It sounds expensive.**

Yes, a building costs a lot of money. And if we were only building for our benefit it wouldn't be worth it. But we firmly believe that this facility will be building disciples of Jesus and will add more disciples to the kingdom of God as we pursue the vision that God gave for The Rock.

### **What will be asked of me?**

First, we ask that you start praying. Pray for God's guidance. Pray that The Rock will be used to transform this community for His glory. Pray about how God will use you in the "Build to Build" project to give financially over and above your regular giving throughout the next three years.

### **How soon will we be in our new facility?**

We hope to move into our new facility by the end of 2017. However, if you have ever been involved in a new build project, you know that several variables along the way can impact the final "move in" date.

### **Great, I have been waiting for a building! Will it have a \_\_\_\_\_ (petting zoo, IMAX theater, trampoline, coffee bar)?**

We are still working out the specific details of the building. Our main priority is to build a structure that will accommodate the vision of The Rock which is "Making Disciples to Make Disciples." Be sure to attend one of the informational meetings that will take place in February at the Rock Ranch.

### **Isn't there a better way to spend all that money?**

We will continue to give 10% of our tithes to support different ministries, both locally and globally. Our intention in this project is to be able to have a facility that can be used 24/7 to make disciples of Jesus.

### **What if moving into a building changes our church?**

We will continue to implement the vision that God has given to The Rock. Our desire is to enhance the vision that God has given The Rock through this project.
