Getting the word out!

- **Leadership Conference update** from Marcel follows.

338 participants registered and were part of this years gathering. Marcel said that some were experts in procrastination, signing up at the last minute! 45 others pitched in cooking, cleaning and meeting the needs for a gathering of this size.

Think about cooking for that many outside over a charcoal or wood fire for four days. Bois Neuf was at overflow with some being seated outside as you can see from the picture to the right. Leaders came from all over and from many different domination's investing 4 full days in fellowship, feasting, worship but mainly teaching. Marcel's comment -----
"This was full speed non stop teaching".

A registration fee helped cover costs and donations of rice also helped meet the needs.

Plans are already being made for next years conference. October 31st to November 2nd, with a study of the books of Hebrews and James. Consideration is being made to start **building the pillars** in the courtyard this next year with plans to be able to accommodate even more attendees in the future with a larger building.

How encouraging it is to see the hunger for God's word in these leaders. Now they take this precious gift back with them throughout the country, sharing the Good News.

- The new Generator is **up and working**, being located at Marcel's this takes a load off our dear brother with power to spare. There is the possibility that two of his neighbors will also hook in as they have need, helping to share the cost of fuel.

Thanks for continued prayer. At this writing Marcel is fighting a cold and headache. Please pray for his speedy recovery.
