

It's happening!

October 30th thru November 1st Leadership Conference will be in full swing. This year it will be held in the new building at Bois Neuf allowing the 400+ attendees to stretch out a bit. Want to see the new building and where it's at? [Click here](#). Please remember to pray for the attendees who come from all over Haiti as well as the teachers.

Travels to the states. Marcel traveled to Michigan, Ohio, Tennessee and Alabama visiting supporters and friends along the way this past month. So many contribute in so many ways it's hard to report it all, so, just a couple notes of interest for now.

Churches in Colorado, Michigan and Alabama have made and are making it possible for the building at Bois Neuf to come together. Checking out the slideshow mentioned above with the realization that this just would not be possible were it not for the body of Christ all coming together, each with their giftings.

A *clinic* in the mountains? Yes it has begun. For many years now it has been a desire of Marcel's heart to be able to minister spiritually, emotionally and physically to the needs of those around him. From our standpoint the original clinics started not many years ago seemed to meet some very basic needs. When no health care is available even those basic needs are huge. Last month a building in the mountains became the newest addition for clinics. Much work both from stateside and in country all came together as the first (in this location) clinic was held as well as teaching for midwives. This coming week the second clinic will be held with more improvements to the building as it also becomes a place of refuge. If you would like to see some of the progress to date, [click here](#) , here you will also find a link on the photo or title to a short video.

Beyond the mountain clinic work continues to bring to completion a new church/school building. No big deal except that you reach this location by foot. This coming January plans are for a roof to be set in place. A church in Kansas and Tennessee have partnered with the folks there to encourage and walk with them, marveling at all that God is doing. More on this may be seen by [clicking here](#).

Next year is *filling up fast* with groups from Kansas, Tennessee, Colorado and Alabama already in process looking at dates. Not to mention Camp Meeting in April and EMEVI's mission trip scheduled in August going to Belladere, Haiti. Just a couple photo's, one from this year's outreach in Gonaives. www.hopeforhaiti.ws
