

CELEBRATE

Thank you for your contributions whether you pray, give your financial gifts, or sacrifice your time in Haiti. Join us in celebration for the hope given to Haiti by the Lord. Pastor Marcel, head of EMEVI ministries in Haiti, said he is privileged to have people help and wanted to celebrate with each other what God has done. And yet, he adds, it will be nothing compared to what God has planned.

Bataille

Celebrating with *Bataille*

Tucked in the mountains, Bataille had little communication or help from even their close neighbors. Now, with the help of a church in Kansas, those living in Bataille can worship in a cement building with a real tin roof! The people of Bataille and the surrounding communities dedicated the building July 27. They have declared the last day of July as a day of celebration. All glory to God for doing more than we imagined. Want to see another build-

ing rise from the midst of prayer? *Colmini* in the desert has started a building, but it is on pause until more financial help comes to their dry community. The people are anxious to work, but the lack of materials halted progress. Visit <http://www.hopeforhaiti.ws/#/contact-info-history/donate> to give so they can start to build again.

Colmini

John round 2

Health

Pastor Marcel contracted Chikungunya. This virus attacks the joints and comes with fevers and many other painful symptoms. Pastor Marcel is better, but other church members are sick. We celebrate the health of those becoming well from the mosquito-borne illness, and pray for those feeling the effects.

**Pastor Hodel
2nd round**
