

September News from Hope for Haiti

Every Day

A team arrived with no passports. Most of the team did not even have IDs. Yet God gave this team of Haitians an opportunity and the people showed up to help. Not all 102 in-country missionaries would be able to participate but a large portion did. This year the EMEVI mission team traveled to Beledere, Haiti. They asked if the Lord would open a door to go even further. Not every day does a Haitian get to go across a border to pray and praise God. But this day was a day to remember. God provided a way for them to walk 2 miles across the border to Elias Pinas, Dominican Republic. God took care of the papers. Back to Beledere for 4 full days and nights of outreach, worship, messages and more. Each night another EMEVI pastor shared. During the day the team split to 4 different directions and knocked on doors everywhere inviting the people to come. And come they did; filling God's house to overflow.

Next year, it's off to Mole Saint-Nicoles (just follow the green arrow) in the northwest part of Haiti. Each year more and more friendships are being made as the folks with EMEVI continue to reach out meeting their brothers and sisters. Photo's from the trip may be viewed at

Goats, gifts, rice and beans are just a few of the contributions sponsors and supporters bring. Recently the people of Bataille were blessed as they met up with Marcel at the market in Fond Baptist. These blessings go a long way and are multiplied to reach out to even more families. We just shared about the EMEVI mission trip. All the Haitians contribute to that trip. On top of that a tithe from what is received by EMEVI reaches out even further. God's multiplication in action!

Join us in praying for our brother's
and sister's in Haiti.
It makes a difference in us as well!
