Ever wonder if what you do is making a difference. During our visit this past month we met Ezekiel at Colmini. In the early 2000's he was a student in the first building that was built on the current site. A one room school house built for 50 max but during registration 150 students showed up. No, no one was turned away. Today at Colmini around 360 students call it home and Ezekiel is a part of changing peoples lives. This is one of 8 schools that Pastor Marcel oversees. Were it not for folks like you this might well be just a dream. Would you like to sponsor a child? <http://www.hopeforhaiti.ws/#/our-locations-in-haiti> - to find out more.

Have you ever wondered? Really now will that building ever be completed. Check out what's been happening over the years at Bois Neuf and see what you think. This is just a sampling of what's happening now. Go to <http://www.hopeforhaiti.ws/#/projects/bois-neuf> for more on Bois Neuf

Colmini continues to grow. How about you? More on Colmini at

<http://www.hopeforhaiti.ws/#/projects/colmini>

and see a bit from this February's team visit.

Where it all starts. A seed was planted and then nurtured and it grew. Many hands made this possible. Prayer, hands to make dresses, soccer balls donated and the church/school made ready for our visit. Then it was clinic time at Colmini.

Starting April 30th it's conference time for EMEVI. This years theme Jezi vrè modè l la (Jesus the true model). Please pray for many lives to be touched. More to follow...
