

EMEVI Missions

Present - Past - "Future"

3rd in a Three Part Series

Photo's from a trip to Fort Liberte, Nov 2013

Vision

Looking to the "Future"

Proverbs 29:18 from the Message - "If people can't see what God is doing, they stumble all over themselves; But when they attend to what He reveals, they are most blessed.

Putting it into practice, that's what is happening as the EMEVI Team takes a step for the Future. Next year will take the team to Fort Liberte on the north shore not far from Cap Haitien. As they see the Lord moving they continue to do their best to stay in step, so next year, a day will be added to the trip to allow for more time of ministry and outreach. August 8th-16th, 2017. They will, also, move the time frame up in August so there is no conflict with the start of school. Fort Liberte has some history to it so the EMEVI Team will also receive a hands on education seeing the Fort as well as some statues that have been set in place to honor those that made sacrifices for their freedom.

A heritage is not only being seen from the past but being built within the folks that participate in these trips. Today it is being passed onto the next generation. Lives are being changed, not only for the day but, for an eternity as many commit their lives to Christ.

Others are being trained or disciplined to take on leadership roles. There is a **Vision** for the **Future**. We have a responsibility to respond. So, what Vision has the Lord shared with you? Don't forget the past, don't miss today, respond to the divine appointments He places right before you.
