EMEVI Missions

Present - Past - Future

2nd in a Three Part Series

Mole Saint Nicolas

2015

2011 to

Les Cayes

2014 praying at Elias Pinas
in the Dominican Republic

Remembering

Past Days from the last 8 years

EMEVI does far more than minister to... EMEVI. Reaching out to neighbors right next door, including those at Bois Neuf. Touching lives within the community to include working with the "old folks" that are pretty much home bound. Sharing messages through a radio station right in St Marc. Practicing hospitality to those in need to include housing folks in the aftermath of storms. Then going above and beyond to provide roofing and building materials to help with rebuilding. Or maybe it's lending an ear when someone needs to share. Then reaching out beyond the local community to reach the people of Haiti.

Pull up a Haiti map and discover just how far the reach has gone. Port-De-Paix, Mole Saint Nicolas, Gonaives, Jean-Rabel, Hinche, Les Cayes, Belladere (with a border crossing into Dominican Republic) and this year Pilate. There are those that go, those that contribute, those that pray and those that provide hospitality (and more). 10% of contributions that EMEVI receives are set aside to reach out beyond. Those that go contribute and so many of you here are a part of this outreach but may not know it. Seeds are planted, the "soil" is nurtured and watered and the Lord brings the harvest. Many have given their lives to the Lord, even within the EMEVI Teams.

People are encouraged, in the communities, within EMEVI, and here in the States. Haitians are educated and "exposed" to their culture in ways they probably never imagined possible. Watch for part 3 **"FUTURE"** coming soon.
