### Verse 1

It was war, it was war  
About a week ago  
They shot my man  
I was with him about a week ago  
In my city round the city we should stop that  
Keep losing trying to win with the get back  
Don't you see, don't see where that gets us  
Who's cooler?  
There's a body  
There's a shooter  
There's a man without a future  
Now his homies out to get ya  
And the cycle just continues  
If we only just remember

### Hook

That We stronger together  
We was made here to give  
We was made here to love  
We was made here to live (2x)

Now get ya money  
Get success  
And live a good life  
Need to put the guns down  
And get ya mind right (2x)

Now won't you make something...  
Make, make peace  
Won't you make something of yourself  
Make peace  
Won't you make something...  
Make, make peace  
Won't you make something of yourself  
Make \_\_\_\_\_

### Verse 2

Revenge ain't sweet  
Not when you gotta watch ya back  
And you just can't sleep  
It's a lot of other things that you just could be  
A Better man  
A Better woman  
Better human being  
Instead of building one another  
We killing up all our brothers  
Consoling them crying mothers  
They got us in front of judges  
They got us in orange jumpers  
Cuff us and put us under  
This ain't the life for none of us  
We need every one of us

Won't you make something of...  
Make, make peace  
Won't you make something of yourself  
And make peace

### Bridge

Put aside all your pride  
Try to focus on right  
When you go eye for eye  
Then we all end up blind  
We were put here to fly  
We were put here to shine (2x)

### Hook

Now won't you make something of yourself  
Make, make peace  
Make something of yourself  
Make, make \_\_\_\_\_  
Won't you make something of yourself  
Make, make peace

Make something of yourself  
Make, make, make something of yourself  
Won't you make something of yourself  
And make peace
