**Verse 1**

You know the brain  
It's a terrible thing to waist  
The more that you educate  
The more money you can make  
After 12th grade, can't leave it on the stage  
Wanna make a dollar  
Then you gotta be a scholar  
We all at different levels  
But nobody's better  
You can do four years, you can just do two  
You can do trade school  
Just love what you do  
Look pass the minimal  
Learn to think critical

**Hook (1)**

I'm talking dedication, dedication  
Mind elevation, elevation  
I'm talking levitating, levitating  
With higher education, education  
(repeat)

**Verse 2**

Now with Higher Education come connections too  
You trying to find a good job  
They'll become the glue  
You can learn a whole lot picking a brain or two  
Or you can get a good shot  
Dropping a name or two  
So Education don't stop in the classroom  
The library is full of books you can latch to  
Cause Knowledge is infinite  
It got so many benefits  
It's like how you ever resist  
Come quick, get membership

**Hook (2)**

I'm talking dedication, dedication  
Mind elevation, elevation  
I'm talking levitating, levitating  
With higher education, education  
(repeat)  
Think Higher (4x)  
We reaching levels never seen before  
We breaking barriers, knocking down the doors  
(repeat)

I'm talking dedication, dedication  
Mind elevation, elevation  
I'm talking levitating, levitating  
With higher education, education  
(repeat)

Think Higher (4x)  
We reaching levels never seen before  
We breaking barriers, knocking down the doors  
(repeat)

Think Higher (4x)
