

Crayon Rubbing of Nature Items

Take a nature walk and collect nature items such as leaves, grass blades, flowers, tree bark, etc.

Place the items on a table and cover them with a piece of paper. Use a crayon to rub over the items and make an image of the item appear on the paper. Point out the veins in the leaves, the petals on the flowers, the design of the bark, etc. Share that God made all of these beautiful things for us to enjoy and take care of.
