

Nature Scavenger Hunt

Create a picture list of things your child can find in creation. Then take him on a nature walk and let him mark off the picture list as he finds items. When your hunt is over, enjoy a snack together such as goldfish or ants on a log (celery and peanut butter with raisins on top). As you have your snack, talk with him about God's creation by asking these questions.

Can you name some things God made?

What is your favorite thing God made?

Can you guess what part of creation was most special to God? YOU!
