

Home Defense Fundamentals – AR 15 October 9, 2021

The last thing anybody wants is to be in a self-defense situation requiring the use of deadly force. Hopefully this **never** happens, but you should be prepared! So, ask yourself these questions:

- Are you a beginner or novice shooter?
- Do you want to develop and enhance your shooting skills?
- Know what to do during and after a self-defense situation requiring the use of a firearm?
- **More importantly**, do you want to learn to avoid conflict and not be in that self-defense situation?

If you answered yes to these questions, then the USCCA Home Defense Fundamentals is the class for you! This class is specifically prepared for Home Defense for individuals utilizing the AR platform as part of their home defense plan.

Please note your AR-15 must be either registered or NYS compliant. You can also substitute the AR-15 requirement with a Pistol Caliber Carbine (PCC) or another semi auto rifle approved by the Instructor. This course consists of both classroom instruction and live fire exercises. This is a 6-hour class. **The cost is \$80 and \$55 for members of Shawangunk Fish & Game Association.**

To register, for Shawangunk members please contact us directly to ensure member credit at the following:

CD Training
Claude D'Alessandro
USCCA Certified Instructor
cgd725@gmail.com
845-361-2997

Country Outdoorsman
Michael Runnalls
USCCA Certified Instructor
