**Getting started**

Have you ever made homemade bread?

**Discussion**

*Read the passage and answer the following questions as a group.*

How does the idea of a mustard seed provide comfort to address our need to see results now?

Both mustard seeds and yeast grow and multiply very rapidly, and they only need a very small quantity to start the growth process. How does this help us understand faith?

What kind of influence do you have? Who do you have influence over and what future opportunities do you have with these people? How can this group help you pass on your faith?
