

Pk's Perspectives ... Ministry Infrastructure Fund

It's been a bit over two months since the Master Plan Committee challenged us with a vision to update our ministry facilities and resources. The assembled members of the church voted unanimously to approve and commit to the challenges of the Master Plan Committee. Let me give you a quick reminder of the major points of the plan for updating our ministry infrastructure:

- Pay as we go
- 1st Giving Goal: \$225,000
 - Security updates to Preschool, Children's, and office area
 - Purchase of two new 15 passenger vans
 - Design of a multi-ministry building
- 2nd Giving Goal: TBD
 - Construction of new multi-ministry building
 - Acquisition of additional playground equipment
 - Acquisition of an electronic message marquee

We exited the church conference where this proposal was approved knowing that our immediate response to the challenge of the Master Plan Committee was to begin giving sacrificially to meet the financial costs of updating our ministry facilities. Remember: we're paying as we go...no loans, no borrowing. The "To Do" priority is seen in the outline above; the first area of work will be related to the security and safety upgrades in the Preschool, Children's, and office areas. Our Building Maintenance Committee has already begun the process of receiving bids for these upgrades.

I want you to understand that we will not be talking about the Ministry Infrastructure Fund every Sunday. There will not be a commercial every Sunday morning encouraging you to give sacrificially in order to see this vision become reality; we accepted the challenge, now we answer the challenge. Upgrading existing buildings, buying vans, building new buildings – these are not the most important issues for our church but they are necessary because stuff wears out or breaks down and/or ministry needs change. As always, the important issues are reaching lost people with the Gospel of Jesus and discipling believers into a deeper walk with Jesus.

Once a month we will give an update right here in this newsletter related to the Giving Goal so that we can celebrate how God is providing for the needs of His church. Here is your first official update:

Received to Date: \$47, 277
