

Church Attendee Guide

1. Self-screen each family member the morning of the service for respiratory symptoms, fever, or body aches. If your temperature is 100.4 degrees or over, please remain at home.
2. Bring a facial covering for everyone over the age of two. Please wear them before, during, and after the service. We will have some available as well. If you have a medical condition that prevents you from wearing a mask, you do not need to wear one.
3. Maintain 6' of distance from other attendees not in your family unit while attending the service.

Enjoy the opportunity to gather together!
