

What is prayer? Prayer is communicating with God, which involves both talking and listening.

Do we desire to be in relationship with God? Without this desire there cannot be prayer. The good news is that God desires to be in a relationship with us, so whenever we desire a relationship, God is there for us.

What do we learn from the Lord's Prayer?

1) We learn that God desires to be personally close to us, like a father is to a child.

2) God is worthy of honor and praise.

3) God, who desires to know us personally, is also the all-powerful mover of the world.

The question for us is this: Will we honor him by talking and listening to him?
