

What is prayer? Prayer is communicating with God, which involves both talking and listening.

There should be no other reason for prayer than connecting with God.

Last week we learned that God, our Father who desires to know us personally, is also the all-powerful mover of the world. God is worthy of honor and praise.

What do we learn from the Lord's Prayer?

1) We learn that God is the one who provides.

2) We learn that God is full of grace, and desires us to also be full of grace.

3) We learn that we need God to rescue us.

The question for us is this: In whom do we depend: God or ourselves?
