

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
While outside, practice kicking a ball to one another. Be careful not to kick too hard and aim for their feet.	With play dough, roll out a bunch of snakes together. Then use them to make shapes like triangles, rectangles, circles etc. or numbers and letters. Ask them to label!	Talk about "big and little" concepts. See if your child can find five things that are bigger than their hand.	Try saying tongue twisters with your child like "big blue balloon"; "fine fat fish"; "cans of candy kisses" or "mama makes muddy messes Monday"	Make a puppet out of an old sock or mitten and pretend play with your child. Have your child feed, give drinks, put to bed, wake up, and even dance with the puppet!		Take a walk around town and look for numbers on vehicles, houses, signs, store windows etc. Point to and say the numbers together.
Make a cup toss game by taping a ball of aluminum foil to a string and then with the other end tape the string to a cup. Try to catch the foil ball in the cup. Take turns.	Give your child "butterfly" kisses by leaning in close so that your eyelashes brush their cheeks.	Talk about the rules you have in your house, with your child. Talk about the reasons, and what happens if they forget.	Have a "square" day. Draw a square together, cut it out and then look for different shaped objects that are the same. Have a square snack, (a sandwich, cracker, cheese, etc.)	Help your child to learn their phone number. Write it out on a card and then help them to memorize it with a tune. Recite everyday till they know it.	Go for a bike/tricycle ride together. Remember to wear your helmets that meet CSA approved standards.	Trace a letter on your child's back and see if they can guess which letter it is. If they have trouble, tell them which letter first and then draw it.
Have your child run around your house outside. Make sure it is safe, and count how many times they can do it, before they are tired. Give them a cool drink after.	Try marble painting. Place a marble in paint in a container. Place a paper in a box. Then take the marble out of the paint and roll in the box over the paper...neat designs!		Encourage your child to draw a picture of a person or a face. Talk about the features that they add as they draw, or if they forget something encourage them to draw.	Play "I spy" when reading or looking at a book or a magazine. Say things like "I spy some shoes", etc.	See what shapes (square, triangle, circle) your child can make with six popsicle sticks.	When making a salad or something that requires green onion tops. Have your child cut the tops with scissors for the dish. Supervise.
Make a leaf rubbing picture. Collect different leaves and place under a piece of paper. Show your child how to rub the crayons (hold flat and go back and forth).	Sing this month's featured rhymes: "Brown squirrel" and "The Wheels on the Bus"	Go to your local library and check out books that they choose together. Take some home to read for the week.	Rake some leaves together and jump into the piles. Roll and throw and scoop.	Cut greeting cards or old playing cards in half. Mix them all up and have your child match the halves together.	Have your child help you to infused water. Place sliced lemons or cucumber slices or berries in to a pitcher full of water. Let sit in fridge and taste.	Give your child a measuring tape to measure things with. Show them how to use it, and then show them how to read the numbers.
