

FAMILY TABLE TALK

SPIRITUAL FAMILY

COMMUNITY

Family vacations are some of the most enjoyable times you can have. The whole family travels together, does fun things together, sleeps in the same room or tent together, eats together, and makes lasting memories together! Those special family bonds don't just happen by accident—they grow because you spend so much time and life together. God's spiritual family—the church—is like your family. We grow together when we share life with each other. When we eat, laugh, and play together we grow together as a new family God has given us.

Describe your favorite family vacation or experience you can remember. What made it so special?

Who is someone in your spiritual family that you would like to spend more time with?

FAMILY TABLE TALK

SPIRITUAL FAMILY

COMMITMENT

Being part of a family is a wonderful experience. Families are where God designed for us to experience amazing love, safety, laughter, and growth with the most important people in your life.

Each family is special and unique. Since we are so close and spend so much time together, sometimes people in our family can make us frustrated or upset. But...they are still our family. We stay with them and work through our troubles. Our spiritual family works the same way—the people in your church are the special family God has given you. God wants us to love them and stick with them through everything just like our family!

What do you think is the most important thing you can do to grow as a family?

**Is there anything about your family or your spiritual family that makes you upset or uncomfortable?
How can you work through those struggles?**

FAMILY TABLE TALK

SACRIFICE

DEVOTION

When was the last time you put on a brand new set of clothes.

Not the kind grandma gives you, but something you were excited about. Maybe a t-shirt with your favorite character or a sparkly new dress. It feels great to be able to show off your new stuff! Jesus wants us to show off his love and his example by the way we walk through life. If we want to follow Jesus, we show our love for him by worshiping him and living like him. Our life looks brand new when we grab ahold of Jesus!

Think about someone you know who loves Jesus with their whole life—What do you like about how they act?

How would you be able to tell if someone around you is a Christian?
