A Word from our Pastors . . .

Daniel was found to have a keen mind and knowledge and understanding, and also the ability to solve difficult problems. -Daniel 5:12

What is the most dangerous occupation in America? It might be logging. The risk of death to loggers is thirty times higher than the average job nationwide. The leading cause of death is mishandled contact with logging machines, and many times it is because of bad decision-making. There's a science to planning how and where a tree falls when cut. One error in judgment, and tragedy can strike. Few of us are loggers, but we all make decisions. Daniel was a man who made many decisions and who had the ability to solve difficult problems.

Ask God for the attitude of Daniel. Whenever you find yourself out on a limb, ask God for the knowledge to make a wise choice. He won't cut you off – He will faithfully answer your call for help.

Blessings, Pastors Jerry and Judy
