Old Business

- **Healthy church, strategic planning: Michael reached out to the Unstuck Group. Spoke with someone named Laura. They complete a church health assessment. After telling him what our budget is, she felt like it wouldn't be reasonable and that we were looking for something smaller. She recommended looking into "The 95 Network". Michael has reached out to them twice and is waiting to hear back. There is no timeline at this point.**

New Business

- **How we're doing: Review of Scope of Ministries - Joe suggested that we take a look at the scope of ministries documents. Deb mentioned that she thinks children's ministry is meeting all of the goals on her scope of ministry. Lynn said he feels he's on track as well for his scope of ministry. Serena said her list is being met but grateful that she hasn't needed to exercise much from the list at this point. She also shared that sometimes it's hard to follow up with people who've left the church due to anxiety and her personality. Joe said that he feels like he's behind on his scope. He'd like to dedicate more time for a spiritual gifts class. He has some ideas to make the ministry bigger. Jenny said things are fine on track with the scope. Mel feels like she has met all of her goals on the scope as well, other than leading a missions trip. Mish stated she knows that because of the team that she has behind her, she's meeting the necessary goals.**
