

**MOSES: Lapse of Leadership
Numbers 20**

Share with the group about your Thanksgiving.

How did you spend it?

Was it an encouraging day? Was it a challenging day?

What is your favorite holiday and why?

This was the final sermon in the Moses series and it covered various “myths” about leadership.

What were the five myths that were discussed?

What, if any, other myths of leadership can you think of?

The first myth discussed was that “a godly track record guarantees a great ending.” It was suggested that one reason Christians do not end with the legacy/ impact they might like is either because of sin or because they “disengage and remove themselves from serving and connecting within a church”

Do you agree with those reasons?

Have you ever observed Christians who disengage and then wonder why they feel disconnected?

Another myth was that ongoing and unaddressed sin is no big deal.

Have you ever seen a leader’s unconfessed and ongoing sin contribute to their fall?

Why do you think some leaders assume that they can get away with it?

What does this teach us about unconfessed and ongoing sin in our lives?

The Moses’ series is over, and we begin a Christmas series next week.

What was one thing you learned from the Moses’ sermon series?

What, if anything, challenged you from the Moses’ sermon series?
