## **About Exodus 17**

Exodus 17 is a nonprofit organization that exists to maximize the impact of movements in developing countries that are transforming individuals and communities. We do this by strengthening their leaders' physical, mental, and spiritual health. Exodus 17 empowers indigenous community leaders with individualized, strategic support tailored to each location.

After a thorough assessment we implement support in order of the greatest need and highest impact to lowest. For example, recently in Nicaragua, our team trained 110 community leaders in Mental Health First Aid and Best Practices of Multiplying Movements. Those leaders are leading others and in need of continued training support which would happen remotely, necessitating buttressing the technological capabilities and staffing and developing best in class training. This need is also present in Haiti where we have the opportunity to train many community and church leaders in central Haiti to greater mental and spiritual health. Furthermore, our network in Sierra Leone, Africa is reporting incredible growth, especially in deeply impoverished, primarily Muslim communities, but needs help providing access to much needed medical care.

With your help in this tournament and beyond, Exodus 17 is able to support the most fruitful leaders in the world who are making a difference in their communities.

*Exodus 17 is a 501(c)3 non-profit organization governed by a volunteer board of directors. EIN 88-2277199*
